L. L. Mason is to move to Port-  
land next week. He is to open an  
office on Exchange street, where he  
will carry on the same business in  
which he has been engaged here.  
None can doubt Jos. Hamilton's  
appreciation of the superior ad-  
vantages of Gould's Academy,  
knowing that he comes about 10  
miles each day on his wheel to at-  
tend.  
The evening with "Mother

but she will be ready to receive  
her friends Friday evening at Gar-  
land chapel. Ice cream and cake  
for sale after the entertainment.  
Tickets fifteen cents.  
The Ladies' Club will meet with  
Mrs. E. P. Holt, Thursday. All

bought new instruments to be  
used in his business here and now  
has a first class outfit and is ready  
to do all kinds of photographic  
work. He is making some ex-  
ceedingly good premium offers for  
the next thirty days. Doubtless  
many will improve the opportu-  
nity of securing a Christmas pre-  
sent.

The patrons of the Bethel library  
will be pleased to learn that the  
Trustees at their meeting, Mon-  
day evening, voted to place about  
twenty-five new books upon the  
shelves of the library; they will be  
ready for circulation in the near  
future. The library has well earned  
more than a local reputation, re-  
ceiving words of praise from all  
who have had the good fortune to  
patronize it.

Mrs. Ada Wight and two chil-  
dren are at Newton Highlands,  
Mass. Wallie has been danger-  
ously ill of diphtheria but the  
doctor pronounces him out of dan-  
ger now. Ethel Wight, daughter  
of Mr. E. Wight, whom Bethel peo-  
ple will remember, she having  
spent several summers here, is  
dangerously ill of the same disease.  
Their Bethel friends will sym-  
pathize with the family in their deep  
anxiety.

Judge Frye's office having been  
closed a greater part of the time  
since his illness, it is with pleasure  
that we inform the public and his  
many friends, that he has en-  
tered into business relationship  
with Fred R. Dyer, Esq., a prom-  
ising young attorney, and a young  
man of considerable business ex-  
perience; and his office will here-  
after be opened to the public, and pa-  
trons cordially welcomed as of old.

## Merit Talks

"Merit talks" the  
intrinsic value of  
Hood's Sarsaparilla.  
Merit in medicine means the power to  
cure. Hood's Sarsaparilla possesses actual  
and unequalled curative power and there-  
fore it has true merit. When you buy  
Hood's Sarsaparilla, and take it accord-  
ing to directions, to purify your blood, or  
cure any of the many blood diseases, you  
are morally certain to receive benefit.  
The power to cure is there. You are not  
trying an experiment. It will make your  
blood pure, rich and nourishing, and thus  
drive out the germs of disease, strengthen  
the nerves and build up the whole system.

## Hood's Sarsaparilla

Is the best, in fact—the One True Blood Purifier.  
Prepared only by C. L. Hood & Co., Lowell, Mass.  
Do not purge, pain or  
Hood's Pills at large. All druggists.

### WHAT THE MONHEGAN CLUB IS DOING.

The 29th of October found the  
members of the Monhegan Club  
gathered at their accustomed place  
of meeting. Music formed a part  
of the opening exercises, all joining  
in singing "My Country, 'tis of  
Thee." The roll-call was responded  
to by each member and many in-  
teresting facts, current events and  
quotations were contributed. The  
following topics on the Natural  
History and Indians of Maine were  
then discussed in a commendable  
manner:— Game birds, song  
birds, insects, animals, fish and  
reptiles: name and significance of  
the word Indians, names of tribes,  
location and number, personal ap-  
pearance, intelligence, customs,  
homes, industries, kinds and man-  
ner of procuring food, language  
spoken and written, historic evi-  
dences, government. The club en-  
joyed a very instructive descrip-  
tion of the Indians at Oldtown and  
vicinity by Mr. Ernest A. Pratt.  
Under the business of the club a  
program of work, to be observed  
every meeting, was accepted, its  
substance being this:—  
1. Calling to order.  
2. Reading and approving of re-  
cords.  
3. Roll-call.  
4. Recitation by topics.  
5. Report of the critic.  
6. Report of special committees.  
7. Report of standing committee.  
8. Unfinished business.  
9. New business.  
10. Adjournment.

The club was invited by Mrs.  
Rowe to spend their first monthly  
social evening at her home on  
Tuesday evening, November 9th.  
FIRST SOCIAL EVENING OF THE  
MONHEGAN CLUB.

Tuesday evening last, the Mon-  
hegan Club and a few friends were  
entertained by Mrs. E. C. Rowe at  
her home. It was in truth a so-  
cial evening; the spirit of good-  
humor was contagious and all  
seemed desirous to do their part  
toward making it an enjoyable  
affair. An air of cordiality pervad-  
ed the house and banished all in-  
difference on the part of any one.  
Various amusements were partici-  
pated in, which were most en-  
tertaining. A very dainty lunch  
was served, the partners being  
joined by joining parts of divided  
quotations. The last number on  
the program consisted of a voting  
contest for the handsomest, the  
plainest and the wisest gentle-  
man present, which was the  
source of much amusement.  
Those receiving the largest num-  
ber of votes were presented with  
some very beautiful and expen-  
sive pieces of statuary. The club  
will spend a social evening of this  
nature once each month, the  
young ladies entertaining; and it  
was agreed by all that the inau-  
guration of this plan last evening  
was most successfully carried in-  
to effect.

### Martha's Vineyard.

During King Philip's War the  
Indians on Martha's Vineyard,  
through the influence of Govern-  
or Mayhew, remained neutral al-  
though Philip sent emissaries to  
stir the native blood. Thanks to  
the leaven of Christianity, the  
Indians remained firm. They  
were taught military tactics, given  
ammunition and employed as  
guards for the island, so that the  
horrors of the mainland were not  
known here.  
They were not so fortunate how-  
ever in the later wars. From the  
exposed condition of the island, in  
the Colonial wars, in the Revolution  
and in the War of 1812 the  
inhabitants suffered much. They  
made solemn pledges of neutrality,  
but to no purpose. They were  
plundered by French privateers,  
their vessels were seized or de-  
stroyed and many of the young  
men were carried away to serve in  
British men-of-war. Some of the  
inhabitants were captured by the  
enemy and sent to England to be  
shut up in "Dartmouth Prison."  
Sometimes the leading patriots  
were held as hostages while their  
houses were rifled, windows broken  
and depredations of all kinds  
committed. At one time during  
the Revolutionary war, two thou-  
sand cattle were taken from them  
by commanders of the British war-  
ships.  
Not always were they so success-  
ful however, as the following  
story, related to me a few days  
ago, proves. At one time during  
the war, while the inhabitants  
were in constant fear of the hos-  
tilities about them, Captain Na-  
than Smith, while standing on the  
shore on a part of the island  
known as Lambert's Cove, saw a  
fleet of British ships coming to-  
ward the island. He bravely  
stood in plain sight, a little back  
from the shore, until quite a large  
company of red coats had land-  
ed and stacked their guns. He  
then in a loud voice, and with  
much flourishing of his arms, gave  
his orders to an imaginary army,  
supposed to be concealed in the  
woods. The British, thinking  
that a superior force was about to  
attack them, and deeming that the  
better part of valor is discretion,  
fled to their boats in such haste  
that they left their guns behind  
them. Many descendants of  
Captain Fisher still live on  
the island and delight to tell how  
the remarkable presence of mind  
of their heroic ancestor saved the  
island from at least one visit of  
the enemy.  
So much is seen in the papers  
just now in regard to the war-ship  
"Constitution" that I cannot refrain  
from copying the following letter  
written to the local paper here by  
Charles E. Banks, Surgeon  
U. S. M. H. S.  
"There is a peculiar interest for  
us of the Vineyard in the forth-  
coming celebration of the centen-  
nial of the launching of the grand  
old "Constitution." Others may have  
it in mind to point it out, but I  
venture to recall the fact that the  
builder of the "Constitution" was  
a son of Martha's Vineyard.  
This was George, son of Shubal  
Claphorn, of Chilmarr, born in  
that town, July 6, 1748, and his  
connection with the construction  
of this ship, which carried our flag  
to so many glorious victories, is  
one of the precious memories of  
him among his immediate  
descendants. He had served, be-  
fore this signal contribu-  
tion to the fame of his coun-  
try, in a high capacity, Lieutenant,  
Captain and Mayor, during the  
Revolutionary War, at the age of  
thirty, but his name will always  
be linked with this famous ship  
as its designer and constructor.  
And it is a certificate of his hon-  
est and ability that she lives at  
the close of a century, apparently  
as strong as ever, to stir our hearts  
at the recollection of her prowess  
as "Mistress of the Ocean." Dur-  
ing the celebration, with its his-  
torical reminiscences coming  
from eloquent lips, doubtless  
many incidents will find currency  
about the builder of the ship, but  
the simple story that a native of  
a little island town was the master  
mind that fashioned our most  
famous ship should afford the pre-  
sent generation of Vineyarders a  
lively satisfaction in joining with  
all patriotic Americans in the cere-  
monies that are to mark the end  
of her one hundred years of exis-  
tence.  
The Vineyard has reason to be  
proud of more than one of her chil-  
dren. Many who have won dis-  
tinction, and who are not natives  
of the island themselves, can  
trace their ancestry back to it.  
Birchard the maternal ancestor of  
ex-president Hayes lived here, also  
the ancestors of Benjamin Frank-  
lin. The Vineyard has sent her  
sons upon all the waters of the  
globe, and has given to the world  
numerous statesmen, lawyers,  
scientists and artists.

Gould's Academy Notes.  
Miss Barbara Carter of the  
Sophomore class is absent from  
school on account of illness; stu-  
dents and teachers hope for her  
speedy recovery.  
At the Teachers' Convention,  
held at Rumford Falls, Oct. 29th  
and 30th, Prin. Frank E. Hans-  
com was elected President of the  
Oxford County Teachers' Associa-  
tion.  
The speaking by the Freshman  
class, Nov. 5th, was highly credit-  
able to the class. If the mem-  
bers of this class continue to im-  
prove in speaking as rapidly  
as during the past term,  
the elder classes will soon be  
obliged to look to their laurels.  
The Herald, published by the  
students of the Academy, will  
come from the press in a day or  
two. If you are interested in  
Gould's Academy buy a copy and  
read the want column.

### Do It Yourself.

You can tell just as well as a physician  
whether your kidneys are in good  
health. The way to do is to take  
a bottle of glass tumbler, and fill it with  
urine. If there is sediment—a powder  
like substance at the bottom after stand-  
ing a day and night, there is something  
wrong with the kidneys. Another sure  
dreaded test is to urinate often  
and still another sign is pain in the back.  
If urine stains linen there is no doubt  
that the kidneys are affected.  
Any or all of the kidneys,  
liver, bladder and of the urinary passages  
and constipation of the bowels are cured  
by Dr. David Kennedy's Favorite Remedy.  
There is no question about its being  
the best and surest medicine in the world  
for such troubles. It quickly relieves and  
restores inability to hold urine, and people  
young or old who take it are com-  
pelled to get up a number of times dur-  
ing the night. For putting an end to that  
troublesome pain experienced in passing  
urine, nothing is so good as Dr. David  
Kennedy's Favorite Remedy. It corrects  
the bad effects of whiskey and beer; is  
just what the urine can be voided.  
It is a medicine that does not seem  
to be medicine at all. Diseases of the kid-  
neys and bladder often require the use  
of instruments to push back the sandy  
matter so the urine can be voided. In  
such cases Favorite Remedy should be  
taken without further delay or the dis-  
ease may prove fatal. It is sold for one  
dollar a bottle at all drug stores. It is  
worth many times its price.

### SHOOTING FLYING FISH.

A Novel Sport Carried on in Southern  
California Waters.  
The visitor to the island of Santa  
Catalina or he who goes out on the  
launches from Long Beach or San  
Pedro is always entertained by the  
remarkable flights of flying fish,  
which in these waters attain a  
length of 18 inches and a weight of  
2 pounds. Alarmed by the boat  
or steamer, they dash out of the  
water by a vigorous movement of  
the scroolike tail and dash away in  
headlong flight, skimming over the  
waves like birds, presenting so re-  
markable an appearance that the  
tourist who has never seen so ex-  
traordinary a performance takes  
them for birds. The flying fish is not  
flying, but it has four very winglike  
fins which serve it a similar purpose  
—that is, it hurls itself out of the  
water by the aid of its tail, and  
then, using the four winglike fins as  
parachutes, goes soaring away, cov-  
ering a distance of an eighth of a  
mile. When the inertia fails, the  
tail of the fish drops, and the mo-  
ment it strikes the water it begins a  
violent twisting, which sends the  
fish into the air again, and by re-  
peating this the fish is enabled to  
cover the long distance. The wings  
or fins are not flapped, the only mo-  
tion being a tremulous one imparted  
to them when the tail is twisted in  
the water. As the boat glides along  
these fish dart from the water and  
go soaring away on either side, and  
it is then that the sportsman, sitting  
in the bow, has an opportunity for  
some novel sport.  
The fish move like some quick  
very low, not more than two feet  
from the surface, and are not the  
easy shots one might imagine. They  
move rapidly and appear to rise and  
fall over the waves and go sweeping  
away in graceful curves. Sometimes  
four or five are in the air at the  
same time, and the good shot can  
bring them down to the right and  
left. All that is needed to carry out  
the idea of quail shooting would be  
to have a dog, but there is a sea dog  
that flushes this attractive game,  
the agile tuna. The flying fish is  
its legitimate prey, and big schools  
come sweeping in from the deep sea,  
driving the schools of flying fish be-  
fore them, chasing them into the  
air six, eight and ten feet, giving  
marvelous exhibitions of lofty tum-  
bling. At such times the flying  
fishes are crazed with terror and  
leave the water by scores and hun-  
dreds. They fly into boats, out upon  
the dry benches, strike boatmen  
who happen to be in the way of  
their headlong flight and present  
most attractive appearance to those  
who have never seen a flock of ocean  
fliers in the air with fish 6 or 7 feet  
long pursuing in a series of leaps or  
jumps. Sometimes the tuna chase  
the flier along just below the sur-  
face, catching it as it drops, a cloud  
of foam alone telling the story.—  
Santa Catalina.

### A Noted Minstrel.

M. T. Skiff, formerly business  
manager for W. J. Scanlon, the  
Irish Comedian, suffered with  
Rheumatism for years without re-  
lief until he bought a bottle of  
Drummond's Lightning Remedy.  
Two bottles made a well man of  
him. There are a thousand reme-  
dies for Rheumatism, but none  
have received the unsolicited testi-  
monials from prominent people  
as shown by Drummond's Light-  
ning Remedy. When a cure is  
wanted, send \$5 to the Drummond's  
Medicine Co., New York, and they  
will ship to your address two large  
bottles of the Remedy—enough for  
one month's treatment. Agents  
wanted.

### THREE ARE EYES AND EYES.

Some few are perfect many are not—  
some have one trouble, some another.  
Many times a person's eyes are not  
alike, one stronger than the other,  
hence the importance of testing each  
eye separately and carefully. If glass-  
es to fit the stronger are used for the  
weaker, the result may cause much  
trouble and pain.  
By testing each eye separately and  
by using care in each and every case,  
I have in a short time gained a repu-  
tation to be proud of. I refer you to  
any of the many people I have fitted.  
Eyes examined free. No charge if  
not satisfactory.

Theonly Practitioner in Oxford Co.  
NORWAY, MAINE.

Look out for quack doctors. Professors, etc. who try to pass as Graduate Opticians—do you with wit, have never attended an Optical School—simply buy diplomas by mail. Our Optical Department is the finest in Oxford County. Commenced in 1897, we are the only Graduate Optician in Oxford County, personally attending to all Optical work and having diplomas for same.

Don't claim to be the only one selling glasses but does claim to be the only one in Oxford County to make a specialty of fitting glasses, the first to measure the amount of eyes which may enter the eye and special lenses ground for the defects, to tell you a falsehood.

Don't understand us saying we are the only one who can fit you—some "travelling men," "spectacle dealers" and "wonder" opticians will fit you as you can see, but you will pay double the price that HILLS would ask you for the same.

How do you know but a pair fitted by HILLS would be less strain on the eyes? Try it. Why take chances? Don't fool with your eyes. HILLS' prices are much the lower. Solid gold spectacle frames, \$1.50; others ask \$3.00 for same. We also have a cheaper solid gold frame. Gold filled frames, \$1.25, warranted for ten years, others ask \$2.00 for the same. We offer cheap filled, at 50c, and 75c. No charge for examination.

Satisfaction Guaranteed.

Don't delay if your sight is troubling you, but visit us at once.
